sistema di produzione idea

{idea production system}

Ogni “prodotto” IDEAGROUP viene realizzato in Italia ma ciò che lo rende un esempio di Made in Italy per eccellenza (al 100%) sono i suoi valori: la creatività, la tradizione nel mondo del mobile che risale al 1987 e la qualità, caratteristica naturale per un’azienda che si confronta giornalmente con il proprio pubblico e le sue esigenze. Tutto ciò si traduce in un’esperienza e in un know-how specifici.

Every Ideagroup product is made in Italy. On top of that, it is our companies' values that really make our products wonderful examples of the concept of “made in Italy”: creativity, our tradition as furniture makers since 1987 and above all quality, which is the natural characteristic of a company that caters for its customers' requirements on a daily basis. All of this is translated into specific experience and know-how.

L’azienda è particolarmente sensibile nei confronti delle politiche ambientali, ecosostenibilità e sviluppo, per questo tutte le materie prime e gli elementi tecnici utilizzati provengono da produttori selezionati e di certificata affidabilità, nel rispetto delle normative europee vigenti in fatto di sicurezza e di rispetto per l’ambiente. Tutto il ciclo produttivo Ideagroup, che comprende i mobili bagno e i box doccia, è tecnologicamente all’avanguardia ed in costante aggiornamento.

Our companies pay particular attention to the environment and the environmental sustainability of the entire product development process. All raw materials and technical components are supplied by selected reliable suppliers in compliance with current European norms on safety and the environment. The entire manufacturing process for our range of bathroom furniture and shower enclosures, although technologically advanced, is nonetheless constantly updated.
